

Job Number: T-1211-2
Title: Web Developer
Location: Wooster, Ohio
Duration: Contract to Hire
Start date: ASAP
Hourly rate: TBD

Our client's Web Development Team is currently seeking an additional mid-level web developer experienced in the .Net technologies.

Responsibilities:

- Develop and maintain new web based functionality to support our business processes
- Follow an Agile Development methodology to deliver functionality in an iterative fashion
- Design, develop and unit test functionality using .Net 4.0, VS2010, TFS, C# and ASP.net

Qualified candidates will have:

- A bachelor's degree in computer science or management information systems from an accredited four-year college or university
- Two or more years of experience programming web applications using C# and ASP.net
- Experience with using CSS, HTML, JavaScript, and AJAX
- Two or more years of experience using SQL
- Experience making positive contributions in a team environment
- A diligent work ethic and the discipline to prioritize and manage multiple tasks
- Excellent problem-solving and communication skills

Our client will give priority consideration to candidates who have one of the following:

- Experience with the Microsoft .Net 4.0 Framework
- Experience with Visual Studio 2010, Team Foundation Server and SQL Server 2008
- Experience with IBM Message Broker
- Insurance industry application development experience
- Experience building and consuming web services
- Experience working on an agile development team
- Experience with TDD and continuous integration development practices
